- General Q&A

# Marshall Child Development Center Spring 2025 Election

## Available Volunteer Roles

- Vice President, 2-year term
- Treasurer, 2-year term (must be MSFC Civil Servant)
- Member-at-Large, 1-year term

# Vice President Candidate Logan Ojermark

Logan Ojermark and her husband, Chris, are dedicated parents of three kiddos, Briggs, Cade, and Palmer. With firsthand experience navigating the joys and challenges of parenting, Logan brings a unique perspective to the candidacy for the MCDC's Board of Directors.

Having been a part of the MCDC community since July 2021 and currently being MCDC's Vice President, Logan understands the importance of creating a nurturing and stimulating environment for our children. Her personal experiences have fueled her passion for ensuring every child receives the highest quality care possible.

As a member of the Board, Logan would continue to support prioritizing MCDC teachers and management by enhancing parent-teacher communication, improving facilities, and advocating for inclusive programs. Her empathetic approach makes her a valuable asset to the Center's BoD.

Logan is civil servant for MSFC and is a contract specialist for a multi-billion-dollar contract for SLS Core Stages on the Artemis program.

# Treasurer Candidate

## Doug Trent

I'm Doug Trent, seeking re-election as Treasurer. Having served since June 2023, I've gained valuable insight into MCDC's operations and witnessed our staff's dedication to creating an exceptional environment for children and families. As current Treasurer, I understand our financial position and procedures, positioning me to continue improving MCDC through another term.

My family—wife Natalie, daughter Nicole, and son Alex—joined MCDC two years ago, and we're grateful for this wonderful community. Originally from Sacramento, California, we now reside in Madison. Professionally, I've worked with NASA Marshall Space Flight Center since 2009, serving in the Advanced Concepts Office since 2014. My educational background includes a Bachelor's in Mechanical Engineering from California State University, Sacramento, plus a Master's and Ph.D. in Aerospace Engineering from Georgia Tech.

I appreciate your consideration for the position of MCDC Board Treasurer.

Douglas J. Trent

# Member-at-Large Candidate Delphine Duquette

My name is Delphine Duquette, and I would like to continue as the 1-year term Member-at-Large. I've found this work fulfilling since appointment. Our board has worked to improve MCDC, and I hope these changes are visible to you. This progress has been rewarding. For our children to thrive, we need a happy, valued workforce. In the coming year, I want to focus on ensuring our teachers and management receive the support they need.

When we work together—parents, staff, leadership, and board—we build a strong community. I'm happy to be your voice and help fill gaps where needed.

My goal is helping MCDC's leadership achieve sustainable workloads while creating a stimulating workplace.

I'm a materials engineer specializing in Non-Destructive Evaluation at Marshall Space Flight Center. With experience in propulsion, I value diverse teams. My husband Tim, an engine systems engineer, offers valuable perspective when challenges arise.

I ask for your continued support in cultivating our community.
